

**Class Portrait**

# Class Portrait

## Instructions

1. First, poke out the circles for eyes for the center pumpkin, then carve the remaining facial features for each pumpkin and the bowtie.
2. Carve out the smaller sections between the pumpkins.
3. Finally, carve out the cross, then carve the gravestones. Cut out this larger area into several smaller pieces to make it easier to remove without breaking your main design.

**Tip:** This pattern has a lot of thin areas and is very delicate. Carefully carve out each section of the background into several smaller places to make them easier to remove.
