

# Vampy Halloween!

1. First, use a shading tool or wood gouge to shave out the center ring in the eyeball.
2. Carve the outer sections of the bloodshot eye.
3. Next, carve out both of the L's and the W and first E in Halloween, then the letter A and both of the P's in the word Happy.
4. Finally, carve out the remaining letters in "Happy Halloween".
